WORLD ANTIMICROBIAL RESISTANCE (AMR) AWARENESS WEEK 2026
(Nov 18th – 24th , 2026)

Swastha Bharat,
Combating Antimicrobial Resistance

**“One Health,
One Action:
Prevent AMR now”**

Why AMR Matters?

World AMR Awareness Week 2026 highlights the urgent global threat of Antimicrobial Resistance, which occurs when bacteria, viruses, fungi, and parasites no longer respond to medicines. Without effective antimicrobials, common infections become harder to treat, risking modern healthcare, food security, and sustainable development.
